

# MTPS

## Key Features

Growth height: **22**  
inches, 560 mm

Growth area: **72-432**  
ft<sup>2</sup> (6.7-40.1 m<sup>2</sup>)

Light intensity: **500**  
 $\mu\text{mol}/\text{m}^2/\text{sec}$

Lighting: **LED**  
Light Emitting Diode

Airflow:   
Horizontal

\*Max loading: **≈312-872**  
Pots, 6" (≈150 mm) diameter

# PLANT GROWTH ROOM

MTPS series rooms provide a horizontal airflow pattern across multiple tiers and are often used for C3 and similar short plants - ideal for mass-screening projects or sizeable plant propagation programs. Available in increments of 72ft<sup>2</sup> (6.7m<sup>2</sup>).
