Halogen/Incandescent

Airflow:   
Horizontal

\*Max loading: **≈2,160-12,960**  
Seed cells  
≈2" x 2" (5x5cm)

## MULTI-TIER WALK IN

The MTPS Flex allows the room to be converted from a tall plant/high light/single tier configuration to a short plant/low light/two or three-tier configuration. The flexible design means there is no need for special trades or services to adjust shelf height and airflow as research needs change. Available in 72 ft<sup>2</sup> (6.7 m<sup>2</sup>) increments.
