

PGC FLEX

1-TIER

Key Features

Growth height: **59.75**
inches, 1520 mm

Growth area: **19**
ft² (1.8 m²)

Light intensity: **1125**
 $\mu\text{mol}/\text{m}^2/\text{sec}$

Lighting: **FL & H/IN**
Fluorescent &
Halogen/ Incandescent

Airflow: 
Vertical

*Max loading: **≈82**
Pots, 6" (150 mm)
diameter

PLANT GROWTH CHAMBER

The chamber can operate as a single-tier high light growth chamber with a counterbalanced light canopy and upward airflow or be easily converted to either a double or triple tier configuration with medium light intensity and horizontal airflow.
