

PGC FLEX 2-TIER

Key Features

Growth height: **25**
inches, 635 mm

Growth area: **38**
ft² (3.6 m²)

Light intensity: **700**
 $\mu\text{mol}/\text{m}^2/\text{sec}$

Lighting: **LED**
Light Emitting Diode

Airflow: 
Horizontal

*Max loading: **≈156**
Pots, 6" (150 mm) diameter

PLANT GROWTH CHAMBER

The chamber can operate as a single-tier high light growth chamber with a counterbalanced light canopy and upward airflow or be easily converted to either a double or triple tier configuration with medium light intensity and horizontal airflow.
