

# PGC FLEX

## 2-TIER

### Key Features

Growth height: **25**  
inches, 635 mm

Growth area: **38**  
ft<sup>2</sup> (3.6 m<sup>2</sup>)

Light intensity: **500**  
 $\mu\text{mol}/\text{m}^2/\text{sec}$

Lighting: **FL & H/IN**  
Fluorescent &  
Halogen/ Incandescent

Airflow:   
Horizontal

\*Max loading: **≈156**  
Pots, 6" (150 mm)  
diameter

## PLANT GROWTH CHAMBER

The chamber can operate as a single-tier high light growth chamber with a counterbalanced light canopy and upward airflow or be easily converted to either a double or triple tier configuration with medium light intensity and horizontal airflow.
