

PGC FLEX

3-TIER

Key Features

Growth height: **14**
inches, 355 mm

Growth area: **57**
ft² (5.2 m²)

Light intensity: **500**
 $\mu\text{mol}/\text{m}^2/\text{sec}$

Lighting: **FL & H/IN**
Fluorescent &
Halogen/ Incandescent

Airflow: 
Horizontal

*Max loading: **≈528**
Pots, ≈4" (100 mm)
diameter

PLANT GROWTH CHAMBER

The chamber can operate as a single-tier high light growth chamber with a counterbalanced light canopy and upward airflow or be easily converted to either a double or triple tier configuration with medium light intensity and horizontal airflow.
