

# PGW40

# PLANT GROWTH ROOM

## Key Features

Growth height: **76**  
inches, 1930 mm

Growth area: **41.5**  
ft<sup>2</sup> (3.86 m<sup>2</sup>)

Light intensity: **1000**  
 $\mu\text{mol}/\text{m}^2/\text{sec}$

Lighting: **LED**  
Light emitting diode

Airflow:   
Upward

\*Max loading: **≈93**  
Pots, 8" (≈200 mm) diameter

The PGW40 provides upward airflow and offers extended growth height to ensure most plants can be grown to full maturity within a moderate to high light regime.
